MANDATES FOR ACTION AND THE SUSTAINABLE DEVELOPMENT GOALS
“PROSPERITY WITH EQUITY: THE CHALLENGE OF COOPERATION IN THE AMERICAS”

**“Prosperity with Equity: The challenge of cooperation in the Americas”
Mandates for action and the Sustainable Development Goals**

The Summits of the Americas Secretariat has prepared this document with the purpose of aligning the mandates and initiatives from the VII Summit of the Americas and the Sustainable Development Goals (SDGs) to serve as support document for the preparation of futures Nacional reports from Member States and institutional reports from the members of the Joint Summit Working Group (JSWG) with the goal of recognizing importance and added value; analyzing complementarity; identifying and fulfilling the gaps when needed and avoiding duplication of efforts when collecting information and data.

EDUCATION

Recognizing that the right to education without discrimination and access to quality education is vital in the effort to eradicate poverty and to achieve integral development and prosperity with equity and social inclusion, we intend to pursue the following measures:

<p>1.</p>	<p>To entrust the Ministers of Education of the Americas with defining and identifying the necessary actions to build and implement an Inter-American Education Agenda in coordination with other international, regional, and subregional organizations and mechanisms, in order to strengthen policy dialogue and cooperation that help to ensure access for all to quality, inclusive, and equitable education, the strengthening of the teaching profession, and comprehensive early childhood care.</p>	<p>Education Youth and Childhood</p>	<p>Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all 4.1 By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondary education leading to relevant and effective learning outcomes 4.2 By 2030, ensure that all girls and boys have access to quality early childhood development, care and pre-primary education so that they are ready for primary education 4.3 By 2030, ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university 4.5 By 2030, eliminate gender disparities in education and ensure equal access to all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations 4.c By 2030, substantially increase the supply of qualified teachers, including through international cooperation for teacher training in developing countries, especially least developed countries and small island developing States</p>
<p>2.</p>	<p>To strengthen specific public policies and programs for young people with a view to striving to halve by 2025 the number of young people neither studying nor working, through ongoing technical and</p>	<p>Education Youth and Childhood Labor</p>	<p>Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all 4.3 By 2030, ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education,</p>

	<p>vocational education and training, promotion of scholarships and academic mobility, and by fostering human talent through new pedagogies influenced by the arts, innovation and entrepreneurship to help enable them to successfully transition from school to the work place.</p>		<p>including university</p> <p>4.4 By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship</p> <p>4.5 By 2030, eliminate gender disparities in education and ensure equal access to all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations</p> <p>4.b By 2020, substantially expand globally the number of scholarships available to developing countries, in particular least developed countries, small island developing States and African countries, for enrolment in higher education, including vocational training and information and communications technology, technical, engineering and scientific programmes, in developed countries and other developing countries</p> <p>Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all</p> <p>8.3 Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises, including through access to financial services</p> <p>8.5 By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value</p> <p>8.6 By 2020, substantially reduce the proportion of youth not in employment, education or training</p> <p>8.b By 2020, develop and operationalize a global strategy for youth employment and implement the Global Jobs Pact of the International Labour Organization</p>
<p>3.</p>	<p>To identify, research and analyze new strategies and effective public policies in education, carried out inside and outside the region, as well as innovative experiences incorporating intercultural education and the needs of persons with disabilities intended</p>	<p>Education Youth and Childhood Labor</p>	<p>Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all</p> <p>4.2 By 2030, ensure that all girls and boys have access to quality early childhood development, care and pre-primary education so that they are ready for primary education</p>

<p>to improve the quality of educational processes at the pre-school, primary and secondary levels, and to promote access to early education and childhood care. To request the Organization of American States (OAS) to promote discussion and formulation of public policies through the relevant institutions. To request the Inter-American Development Bank (IDB), through the creation of an educational research and innovation laboratory for the Americas, to support this initiative, and likewise the World Bank, through the creation of an inter-American education network, to consolidate the various proposals in this area. To that end, to establish a working group comprising the OAS, the IDB, the Development Bank of Latin America (CAF) and the World Bank to, with the active participation of the Hemisphere's countries, design and integrate these initiatives within an inter-American institutional framework.</p>		<p>4.5 By 2030, eliminate gender disparities in education and ensure equal access to all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations</p> <p>4.7 By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development</p> <p>Goal 5. Achieve gender equality and empower all women and girls</p> <p>5.b Enhance the use of enabling technology, in particular information and communications technology, to promote the empowerment of women</p> <p>Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all</p> <p>8.2 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors</p> <p>8.3 Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises, including through access to financial services</p> <p>8.7 Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour, including recruitment and use of child soldiers, and by 2025 end child labour in all its forms</p> <p>Goal 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster</p>
--	--	---

			<p>innovation</p> <p>9.5 Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending</p> <p>9.b Support domestic technology development, research and innovation in developing countries, including by ensuring a conducive policy environment for, inter alia, industrial diversification and value addition to commodities</p>
4.	To support cooperation for the teaching and learning of languages in the Hemisphere.	Education	<p>Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all</p> <p>4.c By 2030, substantially increase the supply of qualified teachers, including through international cooperation for teacher training in developing countries, especially least developed countries and small island developing States</p>
5.	To promote agreements for academic and scientific exchanges and the transfer of knowledge and technologies in order to impact the education sector, with a view to contributing to education and training processes to the fullest possible extent of respective national capacities.	Education Technology	<p>Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all</p> <p>4.4 By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship</p> <p>4.b By 2020, substantially expand globally the number of scholarships available to developing countries, in particular least developed countries, small island developing States and African countries, for enrolment in higher education, including vocational training and information and communications technology, technical, engineering and scientific programmes, in developed countries and other developing countries</p> <p>Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all</p> <p>Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development</p> <p>17.6 Enhance North-South, South-South and triangular regional</p>

			<p>and international cooperation on and access to science, technology and innovation and enhance knowledge sharing on mutually agreed terms, including through improved coordination among existing mechanisms, in particular at the United Nations level, and through a global technology facilitation mechanism</p> <p>17.8 Fully operationalize the technology bank and science, technology and innovation capacity-building mechanism for least developed countries by 2017 and enhance the use of enabling technology, in particular information and communications technology</p>
6	<p>We welcome, in the framework of this Summit, the holding of the first meeting of the Forum of University Rectors of the Americas and as an opportunity for strengthening their interaction, dialogue, and sharing and exchanging information and achievements on research initiatives, cooperation, and innovative practices with government—particularly the education authorities—, the business sector, and civil society organizations and social actors. We take note with interest of the results of the Forum.</p>	<p>Education Public and Private Coop. Civil Society</p>	

HEALTH

Recognizing that health is a fundamental right of the entire population, an essential condition for the integral and sustainable development of peoples, and a necessity for economic growth with equity, inclusion, and social cohesion, we intend to pursue the following measures:

<p>1.</p>	<p>To continue moving toward the attainment of universal access to health and universal, quality, comprehensive, timely health coverage without discrimination, taking into consideration gender differences in health and including the availability of safe, affordable, effective, quality essential medications, as essential elements in achieving equity and social inclusion. To that end, we reaffirm our support for the Strategy for Universal Access to Health and Universal Health Coverage adopted by the member states of the Pan American Health Organization (PAHO) in 2014, and we request the collaboration of PAHO and other institutions engaged in this area to support national efforts for its implementation, consistent with international obligations, and its ongoing monitoring over time.</p>	<p>Health</p>	<p>Goal 3. Ensure healthy lives and promote well-being for all at all ages 3.8 Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all</p> <p>Goal 6: Ensure availability and sustainable Management of water and sanitation for all 6.1 By 2030 achieve universal and equitable access to safe and affordable drinking water for all 6.2 By 2030 achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations 6.3 By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing the release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally.</p>
<p>2.</p>	<p>To continue working towards comprehensive health coverage being available to everyone at every stage of life, while ensuring that the use of health services does not expose people to financial hardship, particularly groups in a vulnerable situation.</p>	<p>Health</p>	<p>Goal 3. Ensure healthy lives and promote well-being for all at all ages 3.8 Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all</p>
<p>3.</p>	<p>To strengthen the ability of national health systems to prevent, detect, and respond to outbreaks of emerging infectious diseases and other public health emergencies, particularly those with the potential for cross-border effects and impacts in realms beyond health, including social, economic, security, and political risks.</p>	<p>Health</p>	<p>Goal 3. Ensure healthy lives and promote well-being for all at all ages 3.d Strengthen the capacity of all countries, in particular developing countries, for early warning, risk reduction and management of national and global health risks</p> <p>Goal 6: Ensure availability and sustainable Management of water and sanitation for all 6.3 By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing the release of hazardous chemicals and</p>

			materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally.
4.	We encourage efforts to strengthen preparedness and response capacities to handle outbreaks of emerging epidemic diseases, in particular through the International Health Regulations, and note the work done by PAHO to develop a regional mechanism to support those efforts.	Health	<p>Goal 3. Ensure healthy lives and promote well-being for all at all ages</p> <p>3.9 by 2030 substantially reduce the number of deaths and illnesses from hazardous chemicals and air, water and social pollution and contamination.</p> <p>3.d Strengthen the capacity of all countries, in particular developing countries, for early warning, risk reduction and management of national and global health risks</p>
5.	To recall the Declaration of Commitment of Port of Spain of the Fifth Summit of the Americas, held in 2009, and the Regional Plan of Action on Non Communicable Diseases (NCDs), adopted by the member states of the Pan American Health Organization (PAHO) in 2013, which highlighted the need for the prevention and control of NCDs; also bearing in mind the global and regional target to achieve a 25 percent relative reduction in premature mortality from NCDs by 2025, and underscoring the need to intensify the multisectoral responses to the growing health, social, economic, and adverse development impacts of NCDs, through public policies and cost-effective measures within and outside the health sector. We call for the establishment of an Inter-American Task Force on NCDs, led by PAHO, that complements the United Nations Interagency Task Force on the Prevention and Control of NCDs.	Health	<p>Goal 3. Ensure healthy lives and promote well-being for all at all ages</p> <p>3.2 By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under 5 mortality to at least as low as 25 per 1,000 live births</p> <p>3.4 By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being</p>
6.	To work to ensure secure and sustainable access to potable water and sanitation services for the population as a whole. We recognize that basic sanitation and hygiene are essential for health, integral and sustainable development, and environmental management and constitute a fundamental condition for the well-being and decent life of the population.	Health	<p>Goal 6. Ensure availability and sustainable management of water and sanitation for all</p> <p>6.1 By 2030, achieve universal and equitable access to safe and affordable drinking water for all</p> <p>6.2 By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations</p> <p>6.a By 2030, expand international cooperation and capacity-building</p>

			support to developing countries in water- and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies
7.	To encourage the joint efforts of the public and private sectors, civil society, and other social stakeholders to strengthen strategies for food and nutrition, specifically child nutrition, as an integral element of health in fighting poverty, hunger, and inequality.	<p>Health Public and Private Coop. Youth and Childhood Social Development</p>	<p>Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture 2.1 By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round 2.2 By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons</p>
8.	To accelerate efforts to improve maternal and child health, in particular reducing maternal and child mortality, including neonatal mortality, and continue working to ensure effective access by all women to comprehensive healthcare, in particular during pregnancy, partum and post-partum periods. To request the collaboration of PAHO in continuing to support the countries in this endeavor. We commit to supporting the renewal of the United Nations Global Strategy for Women's and Children's Health.	<p>Health Gender Issues Youth and Childhood</p>	<p>Goal 3. Ensure healthy lives and promote well-being for all at all ages 3.1 By 2030, reduce the global maternal mortality ratio to less than 70 per 100,000 live births 3.2 By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under 5 mortality to at least as low as 25 per 1,000 live births</p> <p>Goal 5. Achieve gender equality and empower all women and girls 5.6 Ensure universal access to sexual and reproductive health and reproductive rights as agreed in accordance with the Programme of Action of the International Conference on Population and Development and the Beijing Platform for Action and the outcome documents of their review conferences</p>

ENERGY

Recognizing that energy is a fundamental resource, pillar, and cornerstone for the sustainable development of peoples and that access to diverse forms of reliable, safe, and affordable energy contributes to ending poverty and to economic growth with equity and social inclusion, and reaffirming the sovereign right of each country to the conservation, development, and sustainable use of its own energy resources, we intend to pursue the following measures:

1.	To promote, taking into account national needs and priorities, ways to optimize and facilitate the implementation of funding mechanisms for projects in the energy sector, in line with national energy development policies or regional projects, as applicable, including those involving the private sector, as appropriate, especially those that target energy security, the implementation of different types of energy, including, clean, safe, and sustainable alternative energies, and the adjustment and application of policies that, among other goals, promote these types of energy sources. To that end, we request the collaboration of the international financial institutions, in particular to address existing barriers to energy project financing, where appropriate, particularly recognizing the peculiar needs of the small states of the Hemisphere.	Energy	<p>Goal 7. Ensure access to affordable, reliable, sustainable and modern energy for all</p> <p>7.1 By 2030, ensure universal access to affordable, reliable and modern energy services</p> <p>7.a By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology</p>
2.	To give greater impetus to expanding subregional and regional energy integration and interconnection in a framework of fair and efficient exchange and in accordance with national energy development policies, in order to achieve energy security and independence in the region, broader coverage, and access to investment.	Energy	<p>Goal 7. Ensure access to affordable, reliable, sustainable and modern energy for all</p> <p>7.1 By 2030, ensure universal access to affordable, reliable and modern energy services</p> <p>7.b By 2030, expand infrastructure and upgrade technology for supplying modern and sustainable energy services for all in developing countries, in particular least developed countries, small island developing States and landlocked developing countries, in accordance with their respective programmes of support</p>
3.	To promote energy cooperation strategies based on solidarity and complementarity, including fostering the sharing of information and experiences on	Energy Technology	<p>Goal 7. Ensure access to affordable, reliable, sustainable and modern energy for all</p>

	<p>measures adopted to enhance efficiency, coverage, access, and quality of energy services, as well as the development of diverse energy sources, using technologies and management instruments ensuring economic development, social inclusion and that preserve the environment, with special emphasis on less scientifically and technologically developed countries, through, inter alia, the transfer of technology, without conditionality. Additionally, to promote the use of indicators to provide reliable information for measuring progress made with these goals, and to request the Economic Commission for Latin America and the Caribbean (ECLAC), the CAF, the IDB, and the Latin American Energy Organization (OLADE) to continue supporting the efforts of countries to that end.</p>		<p>7.1 By 2030, ensure universal access to affordable, reliable and modern energy services 7.a By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology 7.b By 2030, expand infrastructure and upgrade technology by supplying modern and sustainable energy services for all in developing countries in particular, least developed countries, small island developing states and landlocked developing countries, in accordance with their respective programs of support.</p>
<p>4.</p>	<p>To acknowledge the Sustainable Energy for All (SE4ALL) initiative of the United Nations which sets the goals of achieving universal access to modern energy services, doubling the global rate of improvement in energy efficiency, and doubling the share of renewable energy in the global energy mix by 2030. With regard to access to energy services, we propose to achieve the goal of universalization in our countries by 2022.</p>	<p>Energy</p>	<p>Goal 7. Ensure access to affordable, reliable, sustainable and modern energy for all 7.1 By 2030, ensure universal access to affordable, reliable and modern energy services 7.2: by 2030, increase substantially the share of renewable energy in the global energy mix</p>
<p>5.</p>	<p>To promote patterns of energy production and consumption that make it possible to achieve higher levels of energy efficiency, especially in the industrial, residential, and transport sectors, with due consideration for the environment and the specific needs and circumstances of each country. Accordingly, to implement education and awareness programs on the importance of promoting these patterns.</p>	<p>Energy Environment Education</p>	<p>Goal 7. Ensure access to affordable, reliable, sustainable and modern energy for all 7.3 By 2030, double the global rate of improvement in energy efficiency Goal 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation 9.4. By 2030 upgrade infrastructure and retrofit industries to make them sustainable with increased resource efficiency and greater adoption of clean and environmentally-sound technologies and processes with all countries taking action in accordance with their respective capabilities</p>

ENVIRONMENT

Acknowledging the challenges and serious consequences of climate change for our countries, particularly in the poorest and most vulnerable sectors, and that the protection, preservation, and restoration of the environment and its proper stewardship are indispensable for progress toward integral development, we intend to pursue the following measures:

<p>1. To continue and strengthen hemispheric efforts geared toward making progress in the areas of sustainable development and climate change in order to counteract the impacts of climate change, increase the capacity for adaptation of communities and ecosystems vulnerable to climate change, and step up efforts to mitigate greenhouse-gas emissions, in accordance with the principles, objectives, and provisions of the international conventions and instruments, signed by each of our countries, especially under the UN Framework Convention on Climate Change and the United Nations process.</p>	<p>Environment</p>	<p>Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all 8.4 Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-Year Framework of Programmes on Sustainable Consumption and Production, with developed countries taking the lead</p> <p>Goal 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation 9.4. By 2030 upgrade infrastructure and retrofit industries to make them sustainable with increased resource efficiency and greater adoption of clean and environmentally-sound technologies and processes with all countries taking action in accordance with their respective capabilities</p> <p>Goal 13. Take urgent action to combat climate change and its impacts* 13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries 13.2 Integrate climate change measures into national policies, strategies and planning 13.a Implement the commitment undertaken by developed-country parties to the United Nations Framework Convention on Climate Change to a goal of mobilizing jointly \$100 billion annually by 2020 from all sources to address the needs of developing countries in the context of meaningful mitigation actions and transparency on implementation and fully operationalize the Green Climate Fund through its capitalization as</p>
--	---------------------------	--

			<p>soon as possible</p> <p>13.b Promote mechanisms for raising capacity for effective climate change-related planning and management in least developed countries and small island developing States, including focusing on women, youth and local and marginalized communities</p> <p>Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels</p> <p>16.3 Promote the rule of law at the national and international levels and ensure equal access to justice for all</p>
<p>2.</p>	<p>To welcome the results of the Twentieth Conference of the Parties to the United Nations Framework Convention on Climate Change (COP 20) and of the Tenth Meeting of the Parties to the Kyoto Protocol (COP 20 / CMP 10) held in Lima, Peru, which secured important outcomes for global action against climate change, including the adoption of the “Lima Call for Climate Action,” which represents a major step forward in the negotiation process for COP 21, which is to be held in December 2015 and will be a strategic moment for the establishment of a new global commitment.</p>	<p>Environment</p>	<p>Goal 13. Take urgent action to combat climate change and its impacts*</p> <p>13.a Implement the commitment undertaken by developed-country parties to the United Nations Framework Convention on Climate Change to a goal of mobilizing jointly \$100 billion annually by 2020 from all sources to address the needs of developing countries in the context of meaningful mitigation actions and transparency on implementation and fully operationalize the Green Climate Fund through its capitalization as soon as possible</p>
<p>3.</p>	<p>To encourage sustainable and productive agriculture, optimizing the use of natural resources, particularly water and soil, in order to achieve prosperity with equity in rural areas.</p>	<p>Environment Agriculture</p>	<p>Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture</p> <p>2.4 By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality</p> <p>2.a Increase investment, including through enhanced international cooperation, in rural infrastructure, agricultural research and extension services, technology development and plant and livestock gene banks in order to enhance agricultural productive capacity in developing countries, in particular least developed countries</p>

			<p>Goal 12. Ensure sustainable consumption and production patterns 12.2 By 2030, achieve the sustainable management and efficient use of natural resources</p>
4.	<p>To promote the implementation of public policies, practices, and technologies to strengthen national capacities for proper integrated management of water resources. Thus, we reaffirm our commitment to the declaration “Water to Feed the Land,” adopted by the Ministers of Agriculture of the Americas in 2013.</p>	<p>Environment</p>	<p>Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture 2.4 By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality</p> <p>Goal 6. Ensure availability and sustainable management of water and sanitation for all 6.5 By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate</p> <p>Goal 15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss 15.1 By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and drylands, in line with obligations under international agreements</p>
5.	<p>To seek to ensure that land planning and zoning processes carried out at the national and subnational levels take into account plans for environmental risk and natural disaster prevention, mitigation, adaptation, and resilience. In addition, through investments and policies, to promote urban development based on sustainable cities. In this regard, we underscore the importance of the Third UN Conference on Housing and Sustainable Urban Development (HABITAT III), which is to be held in</p>	<p>Environment Disaster Management</p>	<p>Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable 11.1 By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums 11.3 By 2030, enhance inclusive and sustainable urbanization and capacity for participatory, integrated and sustainable human settlement planning and management in all countries 11.a Support positive economic, social and environmental links between urban, peri-urban and rural areas by strengthening national and regional development planning</p>

	<p>Quito, Ecuador, in 2016.</p>		<p>11.b By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels</p> <p>Goal 13. Take urgent action to combat climate change and its impacts*</p> <p>13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries</p> <p>Goal 15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss</p> <p>15.3 By 2030, combat desertification, restore degraded land and soil, including land affected by desertification, drought and floods, and strive to achieve a land degradation-neutral world</p>
<p>6.</p>	<p>To acknowledge the importance, inter alia, of the Minamata Convention on Mercury and of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES), and we encourage the OAS Meeting of Ministers and High Authorities on Sustainable Development to identify areas of commonality and specific cooperation actions for the implementation of those instruments.</p>	<p>Environment</p>	<p>Goal 6. Ensure availability and sustainable management of water and sanitation for all</p> <p>6.3 By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally</p> <p>Goal 15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss</p> <p>15.5 Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and, by 2020, protect and prevent the extinction of threatened species</p> <p>15.7 Take urgent action to end poaching and trafficking of protected species of flora and fauna and address both demand and supply of illegal wildlife products</p>

			<p>15.c Enhance global support for efforts to combat poaching and trafficking of protected species, including by increasing the capacity of local communities to pursue sustainable livelihood opportunities</p> <p>Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels</p> <p>16.3 Promote the rule of law at the national and international levels and ensure equal access to justice for all</p>
7.	To promote the exchange of information and data in the climate field, and capacity building for data collection and analysis to favor resilient development and adaptation to the adverse effects of climate change.	Environment	<p>Goal 13. Take urgent action to combat climate change and its impacts*</p> <p>13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries</p> <p>13.2 Integrate climate change measures into national policies, strategies and planning</p> <p>13.3 Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning</p> <p>Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development Data, monitoring and accountability</p> <p>17.18 By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts</p>
8.	To invite the multilateral development banks, which play an important role in development financing, to examine ways to integrate, as appropriate and of a supplementary nature, sustainable development indicators that are multidimensional in nature in their decision-making processes.	Environment	<p>Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development</p> <p>17.2 Developed countries to implement fully their official development assistance commitments, including the commitment by many developed countries to achieve the target of 0.7 per cent of gross national income for official development assistance (ODA/GNI) to developing countries and 0.15 to 0.20 per cent of ODA/GNI to least developed countries; ODA providers are encouraged to consider setting a target to provide at least 0.20 per cent of ODA/GNI to least developed</p>

			countries 17.3 Mobilize additional financial resources for developing countries from multiple sources

MIGRATION

Recognizing the historic importance of migration in the development of nations, the economic, social, political, and cultural contributions of migrants to their communities of origin, transit, and destination, and the close ties that exist between migration, development, respect for and protection of human rights, and social inclusion, and recognizing, furthermore, the need for cooperation among states in this area, we intend to pursue the following measures:

<p>1.</p>	<p>To design and implement or strengthen public policies to improve economic and social conditions to generate more and better opportunities for advancement of our populations, particularly young people, through the development of human talent, the creation of more and better jobs, the stimulation of the productive sector, access to credit, and improved citizen security, among other factors, so that the decision to migrate can be taken freely and voluntarily.</p>	<p>Migration Youth and Childhood Labor</p>	<p>Goal 1. End poverty in all its forms everywhere Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all</p>
<p>2.</p>	<p>To strengthen dialogue processes at the national, subregional, and hemispheric levels to discuss comprehensive migration policies. In that framework, to recognize the pivotal role of work, decent employment, and fair remuneration, as well as the importance of adopting measures, policies, and programs to facilitate orderly and regular labor migration flows and the regularization of migrants, and to promote labor mobility programs, in accordance with each country's laws and in a framework of unfettered respect for the human rights of migrant workers and their families, especially underscoring the importance of family reunification and promoting conditions for decent and dignified work.</p>	<p>Migration Labor Human Rights</p>	<p>Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all 8.3 Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises, including through access to financial services 8.5 By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value 8.8 Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment</p> <p>Goal 10. Reduce inequality within and among countries 10.7 Facilitate orderly, safe, regular and responsible migration and mobility of people, including through the implementation of planned and well-managed migration policies</p>

<p>3.</p>	<p>To strengthen programs to prevent and fight illicit smuggling of migrants and trafficking in persons, particularly of women, children and adolescents, as well as to generate, review and amend laws, where appropriate, against these crimes so that, in their enforcement, they will render assistance and protection to victims of trafficking and to promote cooperation among states to that end, in accordance with the Convention against Transnational Organized Crime and its protocols on trafficking in persons and smuggling of migrants.</p>	<p>Migration Human Rights Youth and Childhood Gender Issues Security</p>	<p>Goal 5. Achieve gender equality and empower all women and girls 5.2 Eliminate all forms of violence against all women and girls in the public and private spheres, including trafficking and sexual and other types of exploitation</p> <p>Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all 8.7 Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour, including recruitment and use of child soldiers, and by 2025 end child labour in all its forms</p> <p>Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels 16.2 End abuse, exploitation, trafficking and all forms of violence against and torture of children</p>
<p>4.</p>	<p>To support diaspora associations in their desire to structure and improve the effectiveness of their contribution to the social and economic development of their communities of origin, as well as to strengthen their interaction with their host communities.</p>	<p>Migration</p>	

SECURITY

Recognizing that peace and social inclusion help to create better security conditions and that these, in turn, encourage greater prosperity, stability, and quality of life for people, noting that cooperation among our countries in this area should proceed in accordance with the principles enshrined in international law, considering in particular the principle of sovereignty and nonintervention in the internal affairs of states and the respective constitutional and legal systems of countries, we intend to pursue the following measures:

<p>1. To support the initiative of the Inter-American Violence and Crime Prevention Network, agreed to at the OAS, with a view to strengthening hemispheric cooperation on security, within the framework of the domestic legislation of each state.</p>	<p>Security</p>	<p>Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all 4.3 By 2030, ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university</p> <p>Goal 5. Achieve gender equality and empower all women and girls 5.2 Eliminate all forms of violence against all women and girls in the public and private spheres, including trafficking and sexual and other types of exploitation</p> <p>Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all 8.5 By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value 8.6 By 2020, substantially reduce the proportion of youth not in employment, education or training 8.7 Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour, including recruitment and use of child soldiers, and by 2025 end child labour in all its forms</p> <p>Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable 11.7 By 2030, provide universal access to safe, inclusive and accessible, green and public spaces, in particular for women and children, older persons and persons with disabilities</p>
--	------------------------	---

			<p>Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.</p> <p>16.1 Significantly reduce all forms of violence and related death rates everywhere</p> <p>16.2 End abuse, exploitation, trafficking and all forms of violence against and torture of children.</p> <p>16.5 Substantially reduce corruption and bribery in all their forms</p> <p>16.7 Ensure responsive, inclusive, participatory and representative decision-making at all levels</p> <p>16.a Strengthen relevant national institutions, including through international cooperation, for building capacity at all levels, in particular in developing countries, to prevent violence and combat terrorism and crime</p> <p>16.b Promote and enforce non-discriminatory laws and policies for sustainable development</p>
2.	To work on obtaining better data and strengthening evaluations and diagnostic assessments with a view to formulating effective public policies for the prevention of violence and crime that better address this phenomenon in the region in a comprehensive manner. In this regard, to foster the observatories on crime and violence, in accordance with the respective national legislations.	Security	<p>Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.</p> <p>16.1 Significantly reduce all forms of violence and related death rates everywhere</p> <p>16.6 Develop effective, accountable and transparent institutions at all levels</p> <p>16.7 Ensure responsive, inclusive, participatory and representative decision-making at all levels</p> <p>16.10 Ensure public access to information and protect fundamental freedoms, in accordance with national legislation and international agreements.</p> <p>16.a Strengthen relevant national institutions, including through international cooperation, for building capacity at all levels, in particular in developing countries, to prevent violence and combat terrorism and crime</p>
3.	To strengthen efforts and prioritize actions to effectively address violence against women and girls, particularly through the promotion of initiatives to empower women, and the	Security Youth and Childhood Gender Issues	<p>Goal 1. End poverty in all its forms everywhere</p> <p>1.4 By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other</p>

<p>implementation of effective public policies focused on achieving this goal, including measures to prevent, investigate, punish, and eradicate such violence; training for public officials at national and local levels; implementation of programs to educate, sensitize, and raise awareness about this phenomenon; and the collection of data and statistics within, as applicable, the framework of the Inter-American Convention on the Prevention, Punishment, and Eradication of Violence against Women (Convention of Belém do Pará) and its follow-up mechanism.</p>		<p>forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance</p> <p>Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture</p> <p>2.3 By 2030, double the agricultural productivity and incomes of small-scale food producers, in particular women, indigenous peoples, family farmers, pastoralists and fishers, including through secure and equal access to land, other productive resources and inputs, knowledge, financial services, markets and opportunities for value addition and non-farm employment</p> <p>Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all</p> <p>4.4 By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship</p> <p>4.5 By 2030, eliminate gender disparities in education and ensure equal access to all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations</p> <p>4.7 By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development</p> <p>4.a Build and upgrade education facilities that are child, disability and gender sensitive and provide safe, non-violent, inclusive and effective learning environments for all</p> <p>Goal 5. Achieve gender equality and empower all women and girls</p> <p>5.2 Eliminate all forms of violence against all women and girls in the public and private spheres, including trafficking and sexual and other types of exploitation.</p> <p>Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable</p> <p>11.7 By 2030, provide universal access to safe, inclusive and</p>

Make cities and human settlements inclusive, safe, resilient and sustainable</p> <p>11.4 Strengthen efforts to protect and safeguard the world’s cultural and natural heritage</p>

			<p>Goal 12. Ensure sustainable consumption and production patterns 12b Develop and implement tools to monitor sustainable development impacts for sustainable tourism that creates jobs and promotes local culture and products</p>
--	--	--	--

DEMOCRATIC GOVERNANCE

Recognizing that democracy is essential for the social, political, and economic development of the peoples of the Americas and that inequity and poverty are obstacles to development, we intend to pursue the following measures:

1.	To strengthen democracy and the rule of law, the separation and independence of branches of government, respect for all human rights and fundamental freedoms, consistent with all relevant inter-American instruments, transparency, integrity and efficiency in public administrations, and the creation of conditions that enable the involvement of citizens in the entire public policy cycle.	Democracy Human Rights	Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels 16.3 Promote the rule of law at the national and international levels and ensure equal access to justice for all 16.6 Develop effective, accountable and transparent institutions at all levels
2.	To support institution building and modernization of independent electoral organs, in order to strengthen their capacity to guarantee the integrity of electoral processes, and the holding of free, fair and periodic elections, in accordance with each country's legal system, including, as appropriate, the regulation of financing of political activity. We ask the OAS and other organizations of the Hemisphere to provide advisory services and assistance for these purposes, when appropriate.	Democracy Public Management Improvement	
3.	To promote universality of civil registration and the rights related to identity, developing and strengthening programs that make it possible to reduce the levels of under-registration, so that more persons can partake of the benefits of state recognition. We request support from the OAS and the IDB in this effort.	Democracy	Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels 16.9 By 2030, provide legal identity for all, including birth registration
4.	To promote open government and access to information as key tools for achieving greater transparency, better public administration, citizen participation and social inclusion, and to support initiatives currently under way in this regard.	Democracy Social Development	Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels 16.10 Ensure public access to information and protect fundamental freedoms, in accordance with national legislation and international

			agreements
5.	To strengthen regional and international mechanisms for combating corruption, recognizing the value and importance of national mechanisms and a multilateral approach based on reciprocal evaluations on equal terms. To request the OAS to continue supporting the countries in following up on the provisions of the Inter-American Convention against Corruption.	Democracy	Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels 16.5 Substantially reduce corruption and bribery in all their forms

HEMISPHERIC PARTNERSHIP FOR DEVELOPMENT

Summits Follow up

Recognizing the fundamental importance of international development cooperation in all of its modalities and dimensions, guided by solidarity, flexibility, complementarity, alignment with national priorities and voluntary participation, with particular attention to strengthening institutional capacity and the development of human capital to attain inclusive and sustainable development as the basis of prosperity with equity, and further recognizing the importance of public and private investment in research and development and science and technology infrastructure to encourage inclusive innovation, we intend to work to ensure that our countries, within our national development plans are able to implement the aforementioned Mandates for Action, in particular, to have significantly increased by 2025:

<p>a) Access to safe drinking water and basic sanitation;</p>	<p>Goal 6. Ensure availability and sustainable management of water and sanitation for all 6.1 By 2030, achieve universal and equitable access to safe and affordable drinking water for all 6.2 By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations</p>
<p>b) Broadband access to overcome the digital gap;</p>	<p>Goal 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation 9.c Significantly increase access to information and communications technology and strive to provide universal and affordable access to the Internet in least developed countries by 2020</p>
<p>c) The number of youth enrolled in secondary or technical education;</p>	<p>Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all 4.3 By 2030, ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university 4.4 By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship</p>
<p>d) Investment in infrastructure and its effectiveness;</p>	<p>Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture 2.a Increase investment, including through enhanced international cooperation, in rural infrastructure, agricultural research and extension services, technology development and plant and livestock gene banks in order to enhance agricultural productive capacity in developing countries, in particular least developed countries</p>

e) Access to credit geared toward human development.	Goal 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation 9.3 Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains and markets
--	---

We entrust the inter-American organizations and institutions to cooperate and coordinate as extensively as they can in implementing the mandates contained in this document. We call on the institutions of the Joint Summits Working Group, other international agencies, as well as civil society organizations and other social actors, including the private sector, to support the implementation of the aforementioned actions.

We pledge our commitment to periodically follow up on and seek cooperative action on these mandates, through the Summit Implementation Review Group (SIRG) and the Summit of the Americas Follow-up System (SISCA).

Done at Panama City, Panama, on the eleventh day of April of the year two thousand and fifteen.
